
12-year warranty for double-sided solar panels

How long does a solar panel warranty last?

A standard solar panel warranty should come with at least 10 years of protection, though many premium options now offer 25 or even 30+ years of coverage. Most solar panel warranties won't reimburse for labor costs associated with installing new equipment or shipping fees for replacement parts.

What makes a good solar panel performance warranty?

An ideal solar panel performance warranty should include the following conditions: Certain solar manufacturers may even guarantee a degradation rate as low as 0.25% per year, coupled with a performance warranty period of up to 30 years.

How much does a solar panel warranty cost?

In most cases, the cost of a solar panel warranty is \$0. Solar manufacturers typically include both the product warranty and performance warranty with the purchase of the panels. A solar system is a long-term investment, with a typical lifespan of 25 to 30 years.

Why do solar panels have warranties?

Warranties serve as a testament to the quality of a product. Companies typically offer superior warranties for products of higher quality. While solar panel failures are exceedingly rare due to their design to endure for decades and withstand harsh weather conditions, occasional errors may still occur.

How Much Does a Solar Panel Warranty Cost? In most cases, the cost of a solar panel warranty is \$0. Solar manufacturers typically include both the product warranty and ...
