
300w12vdc inverter

What is a compact inverter used for?

This compact inverter is designed to deliver pure AC output for powering difficult loads such as appliances with switchmode power supplies (computers, displays & game consoles). Excellent for powering appliances whilst camping, boating or in remote locations when normal 240V mains power is unavailable.

Are all inverters certified in Australia?

Further, as added peace of mind all models have been submitted and certified to Australian Standard AS/NZS 4763.2011. Many other inverters being sold in Australia are not certified and virtually all would not pass without major upgrades or modifications. *Specifications are subject to change without notice.

Are powerhouse Black Max inverters reliable?

About Powerhouse Black Max Inverters Housed in a rugged aluminium extrusion, this range of Powerhouse inverters was chosen over many others during testing for their robust reliability and unwavering performance - even under severe operating conditions. All others we tested failed our brutal testing regime.
