
30kW UK Mobile Energy Storage Container

What is a GivEnergy battery storage container?

Compact, mobile, convenient, and fully customised to your power needs. With a GivEnergy battery storage container, you can house your critical battery assets securely. We can neatly package your large-scale commercial battery storage system in a custom-built container - giving you unparalleled flexibility on its location.

What is a containerised storage system?

Containerised solutions range from 30 - 500kW power and 200 - 2800kWh capacity, within 10 - 45ft containers. For even larger storage capacity, multiple containers can be combined and stacked. Your containerised system comes to you with all the necessary systems included, Class 0 fire rated, and fully insulated and lined.

Does Cardiff racing have a battery storage system?

Cardiff Racing, the university's team and the first British winners of FSUK in 2017, recently made the move to electric vehicles. To support this transition, they approached S Jones Containers to create a secure on-campus solution for storing and charging their batteries. Read Case Study
