
350kW PV Inverter

What is a Solis S6 GU350K EHV three-phase PV inverter?

Solis S6 GU350K EHV three-phase PV inverters with a power of 350kW, 1500V DC input and 800 VAC output are designed to provide a more cost-effective adaptive solution for utility PV projects. It has maximum efficiency of up to 99%, with 12/16 MPPTs and 32 inputs, the string current is 20A, with perfectly matching efficient high-power PV module.

How much does a 500KW inverter cost?

The cost of a 500kw inverter ranges from 10 to 99999. The price of a 500kw inverter varies by different parameters. Haven't found what you want? Post sourcing requests and get quotations quickly. Stay updated to what's new and popular on the market.

How many MPPTs does a CPS flexom inverter have?

Each inverter includes 15 MPPTs and is available with 30 unfused PV string inputs. The CPS FlexOM solution enables communication, controls and remote product upgrades. Our 350kW inverter units are high performance, advanced and reliable inverters designed specifically for the North American environment and grid.

What is a CPS 3 phase string inverter?

The 350kW high power CPS three-phase string inverters are designed for ground-mount applications. The units are high performance, advanced and reliable inverters designed specifically for the North American environment and grid.

After-sales Service: Technical Guidance Warranty: 5-10 Years Nature of Source Flow: Active Inverter Phase: Three Output Power: 380V Certification: SAA, CE, ROHS, ...

Buy Solis 350KW 3-Phase HV Inverter boasts 12 MPPTs, high power tracking density, AFCI protection, PID recovery for optimal performance with large current bifacial modules.

The Solis S6 GU350K EHV is a 350kW high voltage grid tie inverter designed for utility scale solar PV systems, offering exceptional efficiency, smart string monitoring, and support for 1500V DC ...

The DS 350kW inverter delivers up to 99.0% efficiency and supports >150% DC/AC ratio, making it ideal for large-scale PV plants and commercial rooftops. With up to 16 MPPTs, ...

Solis S6 GU350K EHV three-phase PV inverters with a power of 350kW, 1500V DC input and 800 VAC output are designed to provide a more cost-effective adaptive solution for utility PV ...
