
40-foot folding container for agricultural irrigation in Niue

What sizes are available for agricultural storage?

Our most popular solutions for agricultural storage are the 20- and 40- foot containers. We also have a range of products in other dimensions that can be customized to fulfill your specific needs. Other options include double-door and high-security storage, which are ideal for storing high-value equipment.

What is a container farm called The Greenery?

The Greenery is a next generation container farm enabling local, hydroponic food production anywhere in the world. Developed by Freight Farms-the company that created the world's first container farm-The Greenery packages the most advanced indoor growing technology into a modular 40-foot shipping container.

How does the greenery irrigation system work?

The Greenery(TM) Container Farm's cultivation area uses gravity to make an automated drip irrigation system possible. The irrigation system is maintained by Farmhand™, which senses and ensures nutrient levels and delivers water to the plants on a regular schedule. Airflow is also controlled to optimize plant growth.
