
Abu Dhabi energy storage power supply quotation

Could a 400-megawatt battery energy storage system be built in Abu Dhabi?

State-owned Emirates Water and Electricity Company has requested proposals from 27 qualified companies and consortiums to develop a greenfield 400-megawatt battery energy storage system project in Abu Dhabi. The request for proposals is being issued to bidders who passed the qualification process following the expression of interest in April 2024.

How will a utility-scale battery energy storage system help EWEC?

Othman Al Ali, CEO of Ewec, said that utility-scale battery energy storage system technology will facilitate rapid integration of renewable energy from solar into the system, enabling it to operate and manage peak demand more efficiently.

Why is EWEC deploying Bess in Abu Dhabi?

“Ewec is deploying bess to enhance the flexibility and stability of Abu Dhabi's energy network, allowing for the effective management of peak demand and integration of increasing amounts of renewable energy,” the utility said in a media statement on 25 July.

What is EWEC's new energy storage facility?

The planned facility is expected to provide up to 800 megawatt-hours (MWh) of storage capacity. Called Bess 1, the project will closely follow the model of Ewec's independent power project (IPP) programme, in which developers enter into a long-term energy storage agreement (ESA) with Ewec as the sole procurer.

State offtaker Emirates Water & Electricity Company (Ewec) has invited prequalified companies to submit their proposals for a contract to develop and operate an independent ...
