## After-sales service for bulk purchase of 60kW folding container

How long does it take to ship a solar container?

Standard solar container models can be manufactured and ready to ship in as little as 4-6 weeks. Customized configurations can take up to 8-10 weeks, with shipping times varying by destination. Do you offer after-sales support for mobile solar PV containers?

Why is Suzhou Daxiang container house a good company?

With professional technology and dedicated service, alongside the advantages of convenient installation and transportation, the company's market demand for its products has grown year by year, and its market share has steadily expanded. Suzhou Daxiang Container House Co., Ltd. is becoming an industry benchmark.

What is the production process for container products?

The production process for container products includes three main steps: design, processing, and assembly. First, design is carried out according to the customer's needs, including requirements for size, design, and functionality.

Why should you choose a modular energy storage container?

Advanced monitoring systems and IoT integration ensure optimal performance and remote management capabilities. The modular design allows for easy expansion, with the option to expand the battery storage system by 100 - 500kwh, making our energy storage container perfect for meeting growing energy demands.
