
Baywa solar energy storage

Who is BayWa?

Join us! We are an international project developer of wind, solar and battery storage (BESS) projects. Our activities include the planning, development and construction of these projects, as well as their operation and maintenance, and energy trading. BayWa r.e. is also a leading global supplier to the solar distribution market.

Who are BayWa shareholders?

BayWa r.e. is also a leading global supplier to the solar distribution market. In total, we have successfully brought online more than 6 GW of renewable energy. Our shareholders are BayWa AG and Energy Infrastructure Partners. We offer a comprehensive renewable energy portfolio - solar, wind, hydropower and operations management. Check it out!

What services does BayWa offer?

During the operational phase, BayWa r.e. can support project developers, asset managers and plant operators with various services from 24/7 monitoring, technical and commercial asset management as well as BESS optimization and Energy trading.

Why should you choose BayWa?

Throughout the Asia-Pacific region, we offer extensive competencies in end-to-end development of solar farms. BayWa r.e. is always striving to make renewable energy better, for now and for the future. We are committed to reaching the highest standards for our customers and trade partners, through any part of a project.
