
Belgian base station communication project energy storage

What's going on with the Bess project in Belgium?

Groundbreaking on the BESS project. Image: Luminus. Infrastructure investor I4B and utility Luminus have closed the financing and launched construction on a 150MW/600MWh BESS project in Belgium.

Is ENGIE generating a Bess project in Belgium?

ENGIE is also generating two other BESS projects in Belgium which already have credentials in place, a 100-MW/400-MWh scheme in Kallo and an 80-MW/320-MWh battery in Drogenbos. The firm targets 10 GW of battery capability globally by 2030. At the end of 2023, it contained 1.3 GW of battery capacity in function and 3.6 GW secured under development.

Is Belgium a big market for energy storage?

Belgium is one of Europe's most developed markets for large-scale energy storage, with grid-scale lithium-ion BESS projects being deployed starting in 2020/21. 2025 has seen the start of construction on a 440MWh project from owners BStor and Energy Solutions Group and a 400MWh from utility and power generation firm Engie.

What is I4b - a major milestone in Belgium's energy transition?

A major milestone in Belgium's energy transition has been reached with I4B - The Belgian Infrastructure Fund committing EUR 30 million to a utility-scale battery energy-storage system in Visé, Liège Province.

The Belgian Infrastructure Fund is proud to announce the closing of the financing of a cutting-edge 600 MWh Battery Energy Storage System (BESS) in Visé; together with ...

ENGIE and NHOA have confirmed a partnership to build a 320 MWh battery energy storage system (BESS) at Drogenbos, Brussels. This project is ENGIE's third battery storage ...

GIGA Storage Belgium is an energy company that develops and deploys large-scale energy storage projects within the Belgian energy network. The aim is to play a key role in ...

I4B - The Belgian Infrastructure Fund - has announced a EUR30 million investment in a major battery energy storage system (BESS) project in Visé, Belgium. The 600MWh facility, ...

We're currently building several such battery parks, including Ruien Energy Storage in Belgium. With 84 battery enclosures and a capacity of 100MWh, it will be the one of ...

A major milestone in Belgium's energy transition has been reached with I4B - The Belgian Infrastructure Fund committing EUR 30 million to a utility-scale battery energy-storage ...

I4B - The Belgian Infrastructure Fund has invested EUR 30 million (USD 34.6m) in a 600-MWh battery energy storage system (BESS) project in Belgium, one of the country's ...

ENGIE has started building one of Europe's largest Battery Energy Storage Systems (BESS) at its Vilvoorde place in Belgium. The project, authorised in July 2023 and selected for ...
