How many energy storage facilities are there in Massachusetts?

The Massachusetts Energy Siting Facilities Board has approved two energy storage facilities with a combined capacity of 400 MW/800 MWh. This decision overturns previous rulings that hindered the development of these facilities. Once operational, they will fulfill 80% of the state's 1 GWh energy storage deployment target for 2025.

What is Flatiron Energy's 300 MW battery storage project?

Flatiron Energy's groundbreaking 300-MW battery storage project in Boston aims to enhance reliability and champion environmental justice by 2028. Powering a greener future starts here! Flatiron Energy has received approval from ISO New England for a 300-MW/1,200-MWh battery energy storage system in Boston, Massachusetts.

SHENZHEN -- A quiet energy revolution is unfolding on the roof of the world, where air low in oxygen and merciless winters have long dictated the rhythm of life. The world's first ...

New energy is intermittent and random [1], and at present, the vast majority of intermittent power supplies do not show inertia to the power grid, which will increase the ...

Flatiron Energy's groundbreaking 300-MW battery storage project in Boston aims to enhance reliability and champion environmental justice by 2028. Powering a greener future ...

The 2025 battery price inflection marks a structural shift in energy storage economics. Discover how falling lithium-ion battery costs, LFP technology adoption, and Bolt Power's global supply ...

The world's first intelligent grid-forming photovoltaic and energy storage power station, tailored for ultra-high altitudes, low-temperatures and weak-grid scenarios, has been ...

The standard, which took effect in 2020, offers incentives to clean energy generators and battery storage owners that discharge power into the grid at times of peak ...

The Boston Medical Center, New England's busiest trauma and emergency services center, installed a 572 kW, 1,271 kWh battery storage system manufactured by Tesla. ...

CARVER, Mass., Sept. 10, 2025 /PRNewswire/ -- Plus Power announced it is now operating its Cranberry Point Energy Storage facility in Carver, Massachusetts, the largest utility-scale ...

Plus Power has commenced operations at its Cranberry Point energy storage facility in Carver, Massachusetts, US. The facility is claimed to be the largest utility-scale ...

The Commonwealth overruled the decisions of its own siting boards and one town's moratoria on all solar and storage projects, paving the way for the imminent construction of ...
