
Compact power station factory in Namibia

Will NamPower build anixas II power station?

NamPower has completed the construction of the N\$1.28 billion Anixas II Power Station, a 54 megawatts (MW) facility aimed at strengthening Namibia's electricity supply. The inauguration of the Anixas II Power Station is scheduled for 21 February in Walvis Bay.

Does NamPower own anixas?

NamPower currently owns and operates Anixas I along with two other power stations, contributing to a combined installed capacity of 459.5MW. Namibia's national power utility, NamPower, has completed the construction of the 54-megawatt (MW) Anixas II Power Station, a project valued at N\$1.28 billion.

Why is NamPower launching a new power station?

NamPower stated that the new facility aims to provide reliable and dispatchable electricity to the national grid, supporting the country's energy needs and improving security of supply. The station is also expected to assist in managing the variability of renewable energy sources by providing backup generation when needed.

When did NamPower start construction of Walvis Bay?

NamPower began construction of the station in Walvis Bay after signing an engineering, procurement, and construction (EPC) contract with FK Namibia joint venture (JV) in March 2022.

WINDHOEK, June 19 (Xinhua) -- Namibia officially broke ground on Thursday for its largest solar photovoltaic power plant, the 100-MW Sores Gaib Power Station, marking a major step toward ...

"The purpose of the Anixas II Power Station, in addition to the existing 22.5MW Anixas Power Station, is to provide firm, dispatchable, and reliable generation capacity to the ...
