
Construction of electrochemical energy storage project in Milan Italy

How many energy storage projects are there in Europe?

There are 147 energy storage projects under construction in Europe, with a total capacity of 14 GW, according to the European Energy Storage Inventory, launched by the European Commission. The European Energy Storage Inventory comprises operational, under construction, permitted, and announced energy storage projects across Europe.

Why is CIP launching large-scale battery projects in Italy?

The development of large-scale battery projects aligns with CIP's growing focus on energy storage. With Italy's supportive regulatory environment, the partnership aims to leverage CIP's expertise to advance its storage infrastructure projects. The move also supports Italy's aim to meet the nation's 2030 renewable energy targets.

Can Italy make battery storage projects commercially attractive?

"Italy has a clear need for storage, and the enabling market and regulatory mechanisms are being put in place to make battery storage projects commercially attractive." CIP's Flagship Fund CI V, completed in March 2025, exceeded its EUR12bn (\$12.9bn) target.

What is the European energy storage inventory?

The European Energy Storage Inventory comprises operational, under construction, permitted, and announced energy storage projects across Europe. A real-time dashboard for energy storage also includes their locations and technologies - chemical storage, electrochemical storage, mechanical storage, and thermal storage.

CIP and GC Storage Services to develop 2.3GW BESS pipeline in Italy The development of large-scale battery projects aligns with CIP's growing focus on energy storage.

Cernusco sul Naviglio (Milan), 11th June 2024 - De Nora Italy Hydrogen Technologies S.r.l. ("DNIHT ") subsidiary company of Industrie De Nora S.p.A. ("De Nora "), ...

Italy is one of Europe's fastest growing energy storage markets and recently introduced mechanisms to support this nascent sector. To meet its decarbonisation goals, it set out the ...

European Energy Storage Inventory - projects under construction by technology Europe currently has 913 energy storage facilities in operation, with a combined capacity of 67 ...

The Danish infrastructure investor has joined hands with GCSS to develop the pipeline of large-scale, standalone battery energy storage projects across both northern and ...

Project: Residential Energy Storage Deployment Capacity: 15 kW / 60 kWh (Three 5 kW / 20 kWh Wall-mounted Units) Application: Multi-Unit Residential Energy Optimization ...

Beyond Italy, ContourGlobal has extensive experience in this field, with projects totaling 3

GWh of energy storage capacity already in operation - such as the hybrid facility in ...

In March 2025, Copenhagen Infrastructure Partners (CIP) announced a strategic partnership with GC Storage Services (GCSS) to co-develop a 2.3 GW pipeline of large-scale ...
