
Ebike battery pack

Which battery pack should I use for my e-bike?

Depending on your bike, you can use Standard or RadMission 1 packs for your e-bike. The Standard pack is a 48V 14Ah 672Wh battery that works with Rad Power bikes dating back to 2018. It's not compatible with the RadMission 1 or RadRover 6 Plus ebikes. If you own a RadMission 1, the corresponding 48V 10.5Ah 504Wh battery pack is for you.

Which ebike battery should I buy?

Buy the Yose Power eBike Battery here. Power your electric bike with this sixthreezero ebike battery. Choose between 250- and 500-watt batteries depending on which one works best with your bike. The smaller 250-watt battery has a 36V and 10.4Ah rating, which is plenty for most rides around town.

What battery pack should I use for my Rad Power e-bike?
