
Fiji's new energy supporting energy storage

Why is the National Energy Policy important in Fiji?

Mr Daniel Lund the principal author of the NEP explains the pivotal nature of the NEP as follows: 'The endorsement of Fiji's new National Energy Policy marks a significant policy shift towards a more holistic and balanced approach to the governance, decarbonisation, and resilient development of Fiji's energy sector.'

Why does Fiji rely on fossil fuels?

National energy production and consumption in Fiji remains highly dependent on imported fossil fuels in part due to the current demands of the transport sector and the ongoing reliance on thermal power plants to supplement renewable energy sources within Fiji's electricity sector.

What is Fiji national energy policy 2023-2030?

28 REPUBLIC OF FIJI NATIONAL ENERGY POLICY 2023-2030 This Policy supports the achievement of the following existing National Policy commitments (non-exhaustive, key alignment points only). Key National Policies, Plans, Strategies, Legislation Objective / Target A Green Growth Framework for Fiji (2014)

What is Fiji's energy policy?

The resulting purpose of this national Policy is to provide the overarching guidance required to increase efficiency, support inclusivity and gender equity in relation to energy and the energy sector, scale-up and diversify Fiji's renewable energy portfolio, and support Fiji's long-term energy resilience and security.
