# Georgetown 300MW compressed air energy storage project

What is a 300 MW energy storage plant?

The \$207.8 million energy storage power station has a capacity of 300 MW/1,800 MWh and uses an underground salt cave. Chinese developer ZCGN has completed the construction of a 300 MW compressed air energy storage (CAES) facility in Feicheng, China's Shandong province. The company said the storage plant is the world's largest CAES system to date.

What is a compressed air energy storage project?

A compressed air energy storage (CAES) project in Hubei, China, has come online, with 300MW/1,500MWh of capacity. The 5-hour duration project, called Hubei Yingchang, was built in two years with a total investment of CNY1.95 billion (US\$270 million) and uses abandoned salt mines in the Yingcheng area of Hubei, China's sixth-most populous province.

How much power does a new energy storage facility provide?

The \$207.8 million facility boasts an energy storage capacity of 300 MW/1,800 MWh and occupies an area of approximately 100,000 m<sup>2</sup>. According to ZCGN, it is capable of providing uninterrupted power discharge for up to six hours, ensuring power supplies to between 200,000 and 300,000 local homes during peak consumption periods.

CEEC-built World's First 300 MW Compressed Air Energy Storage Plant Connected to Grid at Full Capacity A photo of the pressure-bearing spherical tanks at the ...

A photo of the pressure-bearing spherical tanks at the "Nengchu-1" project. Photo: Courtesy of Dongfang Electric Corp The world's first 300-megawatt compressed air energy ...

The world's first 300 MW compressed air energy storage (CAES) demonstration project, "Nengchu-1," was fully connected to the grid in Yingcheng, central China's Hubei ...

It is the world's first 300MW compressed air energy storage demonstration project under construction. The motor power range covers 20~150MW, and the voltage level is 10~15.75kV.

The world's first 300-megawatt compressed air energy storage (CAES) demonstration project, "Nengchu-1," has achieved full capacity grid connection and begun ...
