## High quality 1000 amp breaker

What is the function of a 100 amp breaker?

A 100 Amp breaker is a component of an electrical panel. When you have a larger amperage service like 200 Amps, the 100 Amp breaker is a part of your system that can handle up to 100 Amps. In a modern home with a 100 Amp panel, half of the safe capacity is used when one appliance is switched on. If there's an issue and you are lucky, the breaker will trip.

What is a ncl361000 circuit breaker?

The NCL361000 circuit breaker is ideal for industrial and commercial applications requiring dependable circuit protection for high-capacity systems. Its advanced interrupting ratings and thermal-magnetic design make it suitable for manufacturing facilities, data centers, and large-scale commercial installations.
