Who is isolation technology (M) Sdn Bhd?

Isolation Technology (M) Sdn Bhd is an electrical engineering company incorporated in November 2013. In 2014, we launched our new isolator model, the KTE Series, and also trademarked our logo. Since 2016, ISOTECH has expanded from manufacturing empty enclosures to delivering complete Electrical Power & Control Distribution Board solutions.

Why should you use isolator switches in Malaysia?

They are commonly used in industrial, commercial, and residential settings within Malaysia to ensure the safety of personnel and equipment during maintenance or emergency situations.

Safety: The primary advantage of isolator switches is enhancing safety.

What is an electrical isolator?

Electrical isolators like single or three-phase switches play a vital role in renewable energy systems, such as solar and wind power plants. They are used to isolate individual components, such as solar panels or wind turbines, from the electrical grid. This allows for safe maintenance and repair activities without disrupting the entire system.
