
Honiara Solar Street Light 100W Manufacturer

What is an 100 watt solar street light?

An 100W solar street light is an energy-efficient and eco-friendly lighting solution designed for outdoor use. This 100 watt solar street light harnesses solar energy through high-efficiency photovoltaic panels, converting sunlight into electricity to power its high-lumen LED lights.

What is a 100W street light?

Ideal for streets, parking lots, pathways, and public spaces, the 100W street light features a robust design with weather-resistant materials, ensuring durability and long-lasting performance. It typically includes a built-in battery for energy storage, allowing it to provide consistent illumination even during cloudy days or nighttime.

Why did we choose HeiSolar for a street light project?

We chose HeiSolar for the first solar-powered street light project in the city of Coneto, Durango. That's quite an accomplishment for a remote city which lack of transmission lines. I really appreciate the help from the company. We could not have asked for better representatives at HeiSolar!
