What size solar panel do I Need?

Required Solar Panel Size (W): The sizes are quadruple those needed for 12V batteries with the same capacity, due to the higher voltage. A 100Ah 48V battery requires a 240W panel, while a 100Ah 12V battery needs a 60W panel. The higher the voltage of the battery, the larger the solar panel required to charge it, all else being equal.
