
How many base station sites are there in Ouagadougou

How many 4G base stations are there in China?

Back in December last year, Global Times reported, there are currently approximately 6 million 4G base stations worldwide, more than half of which are in China and about 300,000 in the US. Why does China have so many base stations? This is because of a nation-level project in China in 2003.

How many DoCoMo base stations are there in 2021?

In an earlier post on NTT Docomo, we pointed out that Docomo coverage is forecast to increase from 500 base stations in 150 locations to 10,000 sites (in about 500 cities) by June 2021 and 20,000 by March 2022. According to Tefficient, Rakuten had 5739 LTE base stations on air at the end of June.

Can a base station serve a radio?

Again, most of the sites have distributed RAN (D-RAN) so there may be one or more base stations (baseband unit or BBU) and each base station can serve one or more radios. See links at the bottom for tutorials on these topics.

How many LTE base stations does Rakuten have?

The three incumbent operators have roughly 200,000 LTE base stations each.

@Rakuten_Mobile had 5739 LTE base stations on air at the end of June. Within that coverage area, Rakuten's UN-LIMIT customers have unlimited mobile data, outside of its limited data over au's network.
