
Huawei Energy Storage Safety Solution

How safe is Huawei's fire-free energy storage system?

With the battery-pack-level thermal runaway control, Huawei's fire-free energy storage system (ESS) redefines safety. Huawei Digital Power and TÜV Rheinland jointly completed ESS safety tests on Huawei's Smart String & Grid Forming ESS Platform (LUNA2000-4472 series and LUNA2000-215 series).

What makes Huawei digital power ESS safe?

To achieve this, Huawei Digital Power has invested heavily in the quality and safety fields. By upgrading the traditional container-level thermal runaway control to the pack-level thermal runaway control, the company has raised the bar for ESS safety, providing higher-level protection.

Does Huawei fusionsolar have a smart string energy storage system?

The photovoltaic (PV) and smart energy storage solutions provider, Huawei FusionSolar, recently informed its customer base of the safety-enhancing features of its newly released Smart String energy storage system (ESS) solution.
