
If the battery cabinet is scratched will the warranty be void

What happens if you void a warranty?

If you void your warranty, you will no longer be able to get free repairs or replacements from the manufacturer. You may also have to pay for any repairs yourself. In some cases, if the product is damaged beyond repair, you may have to purchase a new one. Understanding warranty void is critical to keep your warranty coverage intact.

Can a DIY repair void a warranty?

If you don't have the proper tools or knowledge, you could accidentally break something or cause more damage than there was to begin with. Additionally, if you do end up causing damage, it may not be covered under your warranty. Secondly, attempting a DIY repair could void your warranty altogether.

Can a warranty be voided if a product is unauthorized?

Unauthorized repairs or modifications: If a product is repaired or modified by someone who is not authorized to do so by the manufacturer, the warranty may be voided. This is because unauthorized repairs or modifications can cause further damage to the product, which may not be covered by the warranty. 3.

Does opening a screw void a HP laptop warranty?

If your laptop has a warranty sticker over a screw or access panel, check your country's HP policy - in most regions (like the US, EU, and many others), opening the panel does not void the warranty, but this can vary. If damage occurs during the upgrade (e.g. broken clips, scratched board), that damage would not be covered.
