Install solar power system

How do I install a solar energy system?
To transport and install, disconnect the power con- nector from the Base Station or Repeater. To clean, use a wet cloth and soap. Do not use abrasives or other chemical cleaners. The Solar Energy System needs to be installed outside with the Base Station (Repeater) nearby, in a place with full sunlight.

How do I prepare for a solar panel installation?
Installing solar panels helps homeowners save money and invest in cleaner energy. To prepare for an installation,determine your energy needs and home compatibility with a solar panel system. The installation requires complicated electrical work and paperwork that any reliable solar installer can handle.

Can I install my own solar panels?
Yes,a customer supplied by a SPS can install their own solar panels,however limitations to the integration with SPS may apply. We recommend contacting the SPS team on 9326 4140 or email sps@westernpower.com.au to discuss their options.
