# Japan Osaka solar power generation and energy storage company

What is Japan's first energy storage project?

In 2015, we started Japan's first demonstration project covering energy storage connected to the power grid in the Koshikishima, Satsumasendai City, Kagoshima. This project is still operating in a stable manner today. One feature of our grid energy storage system is that it utilizes reused batteries from EVs.

Does Japan have a solar power industry?

Japan's solar power industry presents several key considerations for potential investors and stakeholders. The country has set ambitious renewable energy targets, aiming to increase its solar energy capacity significantly as part of its commitment to reduce greenhouse gas emissions.

Is Japan a good place to invest in solar energy?

The competitive landscape is robust, featuring both domestic and international players. Japan's position in the global market is significant, as it is one of the largest solar energy markets, providing a gateway for companies looking to expand their renewable energy portfolios in Asia.

What is Austrade doing for Osaka Gas?

Austrade has been providing Osaka Gas with regular updates on Australia's renewable energy and hydrogen industries, including information about programs such as ARENA's A\$40 million funding for next-generation solar technology. Austrade has also invited Osaka Gas to clean energy seminars and the Decarbonisation Summit in Australia.

The power plants will be owned and operated by a special purpose company in which SSJ has a 51% stake and Osaka Gas has a 49% stake. In addition, Osaka Gas will take ...

Osaka Gas acquired 40% of the 40MW Soma Tsubota Solar Power Plant in Soma City, Fukushima Prefecture, from a Sonnedix affiliate, the company announced on June 27, ...

The company specializes in the photovoltaic (PV) power generation sector, providing consulting services, market trend reporting, and comprehensive analysis that supports the growth of the ...

Sonnex Japan has brought online just under 500MW of solar PV in the country. Image: Sonnedix. Utility Osaka Gas and developer Sonnedix are installing a battery energy ...

The construction will install a 125 MWh battery energy storage in Oita Prefecture. Japan's largest renewable battery storage project will be co-located with Sonnedix's 30 MW ...
