# Jerusalem Electrochemical Energy Storage Planning

What is the Israeli energy storage Council?

Based at Bar-Ilan but to be run in conjunction with the Technion-Israel Institute of Technology in the northern city of Haifa, the body will oversee the development, training, and commercialization of energy storage technologies.

Who inaugurated the new National Institute for energy & electrochemical storage?

Energy Minister Eli Cohen (fourth from right) helps inaugurate the new National Institute for Energy and Electrochemical Storage at Bar-Ilan University, near Tel Aviv, June 3, 2025. (Shlomi Mizrahi, Bar-Ilan University)

Are "deep-tech-based" technology solutions the future of Israel?

(Gavriel Fiske/Times of Israel) Bar-Ilan University President Prof. Arie Zaban, an energy researcher and entrepreneur, said "deep-tech-based" technological solutions were critical for the planet's future and that the institute would "help position the State of Israel as an ecosystem in the field of climatech."

How much money does Israel spend on a new research institute?

The institute's innovative research infrastructure will serve all researchers in Israel, and its establishment is very significant news." The Energy Ministry provided NIS 100 million (\$28.4 million) for the new institute, with Bar-Ilan funding the remaining NIS 30 million (\$8.5 million).

Why Electrochemical Storage Matters for Modern Cities Jerusalem is stepping up as a pioneer in adopting electrochemical energy storage solutions, blending ancient heritage with cutting-edge ...

The Global Energy-storage Giant HiTHIUM Is Supplying Israel With Large-scale Storage Facilities, Positioning the Country at the Forefront of Next-generation Smart-energy ...

At the Jerusalem Tech Park, AGEERA deployed an 8.3 MWh / REN-based behind-the-meter battery system, designed to enhance the site's energy resilience and optimize renewable ...

New NIS 130 million center will pioneer energy storage as renewables gain ground First-of-its-kind institute in Israel, based at Bar-Ilan University and run together with Technion, ...

The results show that, in terms of technology types, the annual publication volume and publication ratio of various energy storage types from high to low are: electrochemical ...

SunContainer Innovations - As one of the Middle East's most historic cities, Jerusalem faces unique energy challenges. With growing demand for renewable integration and grid stability, ...

A Strategic Leap Toward a Sustainable Energy Future In a milestone event for Israeli innovation, Minister of Energy and Infrastructure Eli Cohen and Bar-Ilan University ...

---

It has signed a groundbreaking agreement with the energy company Doral Urban from the Doral Energy Group, under which storage facilities will be established in its hotels. ...

A first-of-its-kind initiative, the National Institute for Energy and Electrochemical Storage, was inaugurated at Bar-Ilan University in partnership with Israel's Technion Institute. ...

Flow batteries represent a distinctive category of electrochemical energy storage systems characterized by their unique architecture, where energy capacity and power output ...

Currently, Israel relies heavily on fossil fuels, with gas and coal constituting over 90% of its power mix. Faced with the challenges of traditional energy dependence and the ...

Jerusalem, 4 June, 2025 (TPS-IL) -- Energy Minister Eli Cohen inaugurated Israel's first National Institute for Energy and Electrochemical Storage at Bar-Ilan University in Ramat Gan. The ...
