
Korea Mobile Portable Power Bank

What are South Korea's new power banks rules?

South Korea is instituting new rules on what type of power banks passengers can bring on board airplanes from March 1, 2025. These new rules are due to an Air Busan plane catching fire in late January at the Busan Airport, although the cause of the incident has not been confirmed yet.

Are power banks allowed on airplanes in Korea?

The Korean Ministry of Land, Infrastructure and Transport (MOLIT) has announced stricter rules regarding power banks (portable lithium-ion batteries) on airplanes. These rules apply to all international travelers, including foreign tourists flying out of Korea. Here's what you need to know before heading to the airport.

Can I charge my phone using a power bank?

If you're flying long-haul, you might not be able to charge your phone using a power bank without violating these new rules. This could be inconvenient, especially since many travelers now rely on mobile apps and e-tickets stored on their phones.

How many power banks can a passenger bring on a flight?

Passengers are also not allowed to charge power banks during flights, and the number of power banks each passenger can bring on board is limited to five. Ministry of Land, Infrastructure, and Transport & Korea Transportation Safety Authority released the following guidelines: 1. Spare Battery Carrying Limits
