
Latvia installs solar panels

Lithuania's Ignitis Renewables has launched its first solar project in Latvia, the 94-MW Varme solar park in Kuldiga district, marking the largest utility-scale PV installation in the ...

To date, Latvia has lagged behind its neighbors in the construction of solar energy parks. In 2023, Estonia's solar power capacity reached 822 MW, Lithuania's 1,165 MW, while ...

Scoring System This country profile highlights the good and the bad policies and practices of solar rooftop PV development within Latvia. It examines and scores six key areas: ...

Latvia inaugurates the 94 MW Varme solar farm, the largest in the Baltics. Learn how this massive project from Ignitis Renewables powers up the grid with 99 GWh annually.

Ignitis Renewables has started commercial operations at the 94 MW Varme solar farm in western Latvia. The project is one of the country's largest PV installations to date.

Many assume Latvia's northern latitude and cloudy winters make solar power impractical. But thanks to high-efficiency monocrystalline panels, falling costs, and generous EU/Latvian ...

The overall solar generation capacity in Latvia currently stands at 600 MW. The solar park in Targale will significantly boost Latvia's solar energy generation, strengthening its ...
