
London Zhongji solar Glass

Who is Zhejiang flat glass?

Zhejiang Flat Glass Co., Ltd, located in Industrial Park, Xiuzhou District, Jiaxing City with convenient transportation, possesses more than 100 sets of further processing production lines for glass, such as edging, toughening, lamination and film mounting.

What is SunGuard® Solar?

SunGuard® Solar is a commercial solar control glass that reflects the sun's energy. It is ideal for applications where excessive solar heat gain could lead to uncomfortable living environments. The reflective qualities of SunGuard® Solar can also enhance the aesthetic appeal.

Who makes flat solar mirrors?

AGC is the leading manufacturer of flat solar mirrors, with years of proven expertise. As a fully integrated company, AGC offers a full range of products dedicated to CSP applications: from sand and low-iron float glass substrates made by our highly specialised float glass plants to high-end solar mirrors. Maximum energy efficiency

What is solar control glass?

Today's technically advanced solar control glass products are here to help. We provide a range of glass options specifically designed to control the amount of heat and light that passes through the window. These solar control glass options are perfect for sealed units in windows on south and south west facing elevations.

Introduction Applications Solar Glass Needs to Be Multi-Functional Types of Solar Glass How Does Solar Glass Work? Product Specifications: Polysolar Solar glass is used to replace conventional construction materials such as glazing or cladding, while also generating electricity on site. In multi-storey buildings where roof space is often limited, facades and windows usually offer the most potential for electricity generation, thus the development of solar glazing is set to play an important role.
