
Mozambique sells outdoor power

Where does Mozambique sell energy?

Electricity grid Afrobarometer Dispatch No. 823 | Asafika Mpako and Stephen Ndoma Summary While Mozambique sells energy to its regional neighbours - South Africa, Zimbabwe, and Zambia being the largest export markets - only 40% of the country

Why is Mozambique a major energy exporter?

Mozambique is a net exporter of energy to countries in the Southern African Power Pool (SAPP) - South Africa being the largest importer. The government views energy exports as a key driver of the Mozambican economy, having passed a new electricity law that simplifies permitting and encourages IPPs activities.

What is Mozambique's energy strategy?

Energy infrastructure and introducing off-grid solutions (Government of Mozambique, 2018). It is complemented by the national power utility's strategy, which seeks to widen access to energy, provide quality electricity, and expand generation and transmission capacity to meet growing domestic

What is Mozambique's energy potential?

The country has one of the largest potentials in Africa, largely thanks to the mighty Zambezi River, which boasts a projected production capacity of 20 GW. More than half of this potential is in Mozambique. Existing power plants such as Hidroelétrica de Cahora Bassa (HCB) contribute significantly to the country's energy production.
