
New Energy Storage Innovation in Victoria

Why did Victoria invest \$6.6m in neighbourhood battery projects?

Victoria invests AU\$6.6M in neighbourhood battery projects, advancing distributed energy storage and reshaping Australia's clean energy future.

What is Victoria's Battery program?

Victoria's battery program dovetails with national efforts to scale community-based energy storage. In July 2024, the Australian Renewable Energy Agency (ARENA) committed AU\$143 million to fund 370 community battery projects across every state and the Northern Territory.

Where is AC Energy storing battery energy?

AC Energy has several large-scale battery energy storage projects in development, including the Gara site. These are the 264MWh Apsley and 1,100MWh Yanco BESS, both located in New South Wales and the 550MWh Pine Lodge and 250MW Glenbrae BESS in Victoria.

How will Australia's energy transformation continue?

Australia's energy transformation continues to gather pace, with Victoria's government announcing a fresh AU\$6.6 million funding round aimed at accelerating the deployment of neighbourhood battery energy storage systems (BESS).

NEW DELHI, India - October 31, 2025 - Sungrow, the global leading PV inverter and energy storage system (ESS) provider, unveiled a suite of cutting-edge innovations at REI ...

At the company's annual Eco-Day presentation, Hithium unveiled three new innovations in long-duration energy storage: the ?Power8 solution; the ?Cell; and the ?Power ...

Australia activates 1.6 GWh energy storage facility with 444 Tesla Megapacks The Melbourne Renewable Energy Hub can power up to 200,000 homes during evening peak ...

Victoria's Development Facilitation Program has fast tracked 19 renewable energy projects worth more than \$5 billion. Collectively, these projects could power around 570,000 ...

The State Government of Victoria has accelerated AC Energy's battery energy storage system (BESS) initiative in Little River via its Development Facilitation Programme. ...

NEWS: A massive new \$450 million Tesla Megapack battery energy storage system is now operational in Victoria, Australia. It's the biggest completed battery project on ...

Melbourne will be home to one of Australia's largest grid-scale BESS (battery energy storage systems) as part of a new renewable energy hub in the city's west. Delivered ...
