
New Zealand energy storage cabinet transaction price

Will Rankine power supply increase wholesale electricity prices in New Zealand?

Concept Consulting's modelling shows that without thermal generation from the Rankine units as part of New Zealand's energy storage solution, wholesale electricity prices would likely be 60% higher in the short-term (the next two-to-three years) and 11% higher in the long-term (ten+ years).

Does New Zealand need flexible thermal generation?

Figure 1: Modelled 2035 thermal generation for the Renewable push scenario To deliver the flexible generation required, New Zealand needs a solution that can balance the trilemma of security, affordability, and environmental impact. An optimal solution would: Have sufficient storage capacity to be able to cover

What is the New Zealand emissions trading register?

Find information on transaction trends and volumes, emission units transferred, privately held units and historical data. The New Zealand Emissions Trading Register (the Register) houses and tracks all emission units used in the New Zealand Emissions Trading Scheme (ETS). As such, it holds a great deal of data that is useful for the carbon market.
