
New Zealand home solar panels

Can a solar panel system be used in New Zealand?

A: Yes! New Zealand gets between 1,700 and 2,400 hours of sunlight per year -- more than enough for a solar panel system for home use. With rising electricity prices and government support for solar energy buyback, many homeowners see a full return on their investment within 7-9 years.

How much does a solar panel cost in New Zealand?

You'll pay around \$8,000 fully installed. While global demand bumped prices slightly in 2022 and 2023, costs are falling again in 2025 -- thanks to sharp drops in solar panel pricing. Use our free 3 Solar Quotes Service to compare competitive prices from top-rated installers. What Is The Cost Of A Solar Panel System In New Zealand?
