
Nordic solar Glass Project

Does Nordic solar have a solar park on Gotland?

Nordic Solar's acquisition of a 40MW solar park on Gotland marks a milestone in their partnership with Helios Nordic Energy, boosting renewable energy production in Sweden. Nordic Solar has acquired a 40MW ready-to-build solar park project from Helios Nordic Energy AB, making it the first large-scale scheme on the Swedish island of Gotland.

What does Nordic Solar do?

At Nordic Solar, we have made it our business to add more renewable energy to the energy system. We develop, construct and operate utility-scale solar parks and BESS in European growth markets. We also divest assets to make new investments in solar energy solutions. Dive into our business model and get insight on our strategic focus.

What is the Gotland solar park project?

The Gotland solar park project is the first large-scale scheme on the Swedish island of Gotland, marking a significant milestone for Nordic Solar in expanding their renewable energy portfolio in the Nordic region.

Where is Nordic solar launching its first battery energy storage system?

Yesterday, Nordic Solar officially inaugurated its first battery energy storage system (BESS) park in Denmark. The facility, located in Borup in the Municipality of Hillerød, marks a great milestone in the company's strategy to integrate battery storage into its portfolio of solar energy projects across Europe.

The projects strengthen our efforts to develop efficient and future-proof energy assets across Europe; says Fuat Volkan Cebe, COO in Nordic Solar Lithuania's Energy ...
