
Norway Bergen solar container battery Export Company

Why did Corvus Energy move to Bergen?

In 2019, recognising the growing market for batteries for maritime use, Corvus Energy decided to move its factory and headquarters to Bergen. This relocation aimed to better serve the Norwegian market and be closer to customers, as Norway was ready to transition from traditional diesel fuel to zero-emission solutions.

Why did Corvus Energy move from Canada to Norway?

Corvus Energy supplied the battery system for the Crowley eWolf, the first all-electric tugboat in the US. The successful relocation from Canada to Norway was facilitated by effective teamwork within Team Norway. Key players included the Royal Norwegian Embassy in Canada and Innovation Norway's offices in Canada, Oslo and Bergen.

Why should you invest in Bergen?

Invest in Bergen played a crucial role on the ground, assisting Corvus Energy in selecting the site for its factory and offices in Bergen. Vestland county and Innovation Norway Vestland also provided valuable support throughout the process.

Baghdad Energy Storage Photovoltaic Project Baghdad, Iraq - May 3, 2024 - Shanghai Nenghui Energy Storage Co., Ltd. (Nenghui), a global leader in renewable energy solutions, has ...

In today's dynamic energy landscape, harnessing sustainable power sources has become more critical than ever. Among the innovative solutions paving the way forward, solar ...

The US-based Pomega Energy Storage Technologies, specialising in lithium iron phosphate battery production, will install a 62-megawatt (MW)/104-megawatt-hour (MWh) battery energy ...

The company, Giertsen Energy Solutions, specializes in providing high-quality solar power solutions, including integrated systems for efficient and reliable energy generation and storage. ...

Corvus Energy celebrated the grand opening of its automated battery factory in Bergen, Norway. Approximately 450 guests from around the globe attended the opening ...

Energy storage product company in Bergen Norway Corvus Energy is a pioneer in the development of batteries for ships. The company relocated its headquarters from Vancouver, ...

Corvus Energy celebrated the grand opening of its automated battery factory in Bergen, Norway. Yesterday, approximately 450 guests from around the globe attended the opening ceremony, ...

SunContainer Innovations - As Norway accelerates its transition to renewable energy, the EK SOLAR Energy Storage Power Station in Bergen stands as a critical infrastructure project. ...

An early adopter of electric transport, Norway continues to capture EV battery headlines. Electric cars now account for 79 per cent of new cars sold in Norway, and the MS ...

Detailed info and reviews on 7 top Energy Storage companies and startups in Norway in 2025. Get the latest updates on their products, jobs, funding, investors, founders ...

What Are the Key Factors for Successfully Exporting Solar Battery Storage in 2025? Meta Description: Explore key factors for exporting solar battery storage systems in ...

A solar power container is a pre-fabricated, portable unit--typically housed in a standard shipping container--that integrates photovoltaic panels, inverters, battery storage, ...

The company emphasizes the critical role of battery cell production in advancing the energy transition and its potential as a key export industry in Norway. Their commitment to ...

The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now ...

Corvus Energy is a pioneer in the development of batteries for ships. The company relocated its headquarters from Vancouver, Canada to Bergen, Norway in 2019. This ...
