
Ottawa solar power system full set of battery manufacturers

Why should you install battery storage in your solar system?

By integrating battery storage into your solar system, you can harness more of the energy you generate and enjoy reliable backup power during grid outages. LB Electric specializes in the installation of solar battery storage systems for homeowners in Ottawa and surrounding areas.

Are solar and battery storage a distributed energy resource?

Solar and battery storage are considered a Distributed Energy Resource, or DER. This refers to small-scale power generation and storage systems that are 'distributed', meaning they are spread out closer to where the energy is needed, rather than relying on one large power source.

Why should you choose a battery-only & off-grid Solar System?

Great range of battery-only and off-grid solar ensures your energy autonomy, providing a reliable, continuous power supply even during outages, no grid availability and a variety of grid-limited service availability while promoting sustainable energy use.
