# Port Louis Uninterruptible Power Supply Customization Factory

What is UPS (uninterruptible power system)?

UPS (Uninterruptible Power System), that is, uninterruptible power supply, is a constant voltage and constant frequency uninterruptible power supply with energy storage devices and inverters as the main component.

What is a Mitsubishi Electric uninterruptible power supply (UPS) system?

Mitsubishi Electric uninterruptible power supply (UPS) systems provide daily power conditioning as well as backup power in the event of an outage to reduce damage to manufacturing equipment and maintain uptime for your production line.

Why do you need an uninterruptible power supply system?

Uninterruptible power supply systems can reduce downtime (and its cost) in manufacturing by providing reliable backup power in an emergency. A UPS allows your systems to shut down slowly, in alignment with standard procedures, as opposed to the rapid shutoff of an outage, which could damage the equipment.

What is an uninterruptible power source (UPS)?

Uninterruptible Power Sources (UPS), or Uninterruptible Power Supplies, are there to back-up grid distribution and enable any particularly critical equipment or tool. Similarly a range of standardized DIN power... [Read more](#)
