
Prices for installing solar panels in the EU

How much does it cost to install solar panels in Europe?

Southern European nations, including Spain and Italy, often present more competitive pricing, with typical costs between EUR7,000 and EUR10,000, thanks to higher solar irradiance levels and lower installation costs.

How much does a solar PV system cost in the EU?

However, the cost can vary depending on a few factors, such as the size of the system, the type of solar panels, and where you live in the EU. On average, a residential solar PV system in the EU can cost anywhere between EUR4,000 and EUR10,000 for a standard 3 to 5 kW system, which is typically enough for an average household.

How much does a solar panel installation cost?

A complete solar panel installation typically costs an average of 3 000 to 5 700 euros, including installation costs and excluding VAT. The exact cost of your solar panels depends on factors such as the type of installation and the number of panels, while the number of panels you install depends on your energy consumption.

Why do solar energy costs vary across Europe?
