# Riyadh solar Glass Stone

What is Riyadh stone?

Riyadh Stone is a type of limestone commonly used in construction in Riyadh, Saudi Arabia. As a natural stone, it has a high thermal mass, which means it has the ability to absorb and store heat. However, it does not have any specific properties that make it more effective than other types of stone in terms of heat absorption.

Will Saudi Arabia be the world's largest solar plant?

Set to be one of the world's largest solar plants, the project will contribute substantially to sustainable development and reduce carbon emissions in the Kingdom of Saudi Arabia. Masdar, GD Power of China, Korea Electric Power Corporation (KEPCO)

When will Saudi Arabia start a solar plant?

The plant is expected to commence early generation at full capacity in early 2027, with commercial operation targeted for the same year. Set to be one of the world's largest solar plants, the project will contribute substantially to sustainable development and reduce carbon emissions in the Kingdom of Saudi Arabia.
