
San Diego Wind Inverter Manufacturer

Does San Diego have a wind industry?

The Wind Industry in San Diego: Spinning up clean, renewable energy. Wind energy plays an increasingly important role in San Diego's electricity portfolio. According to the Electric Power Research Institute, the cost of producing wind energy has decreased nearly four fold since 1980.

Are San Diego-based wind companies a good investment?

San Diego-based wind companies have the tools and talent necessary to capitalize on this growing market and provide resource-efficient, clean wind energy to power the region and beyond. Wind energy also creates jobs.

Who makes power inverters?

EPC Power is the only manufacturer in North America producing grid-scale power inverters. A power inverter is a device that converts electricity between AC (Alternating Current) and DC (Direct Current). AC electricity is the type that powers our homes through power lines, while DC electricity is commonly supplied by batteries.
