
San Jose Energy Storage Power Manufacturer

Should San Jose buy more power?

In San Jose, city energy officials say they are reluctant to procure additional power until they know which projects will actually be built. "We do not want to buy more power than we need," said panelist Lori Mitchell, director of San Jose Clean Energy, the city's publicly-owned electricity provider. "That's job No. 1."

Could data centers for AI triple San Jose's energy use?

Data centers for AI could nearly triple San Jose's energy use. Who foots the bill? | AP News
Data centers for AI could nearly triple San Jose's energy use. Who foots the bill? San Jose, the symbolic capital of Silicon Valley, is now ground zero in California's battle over how to govern the rise of data centers used to power artificial intelligence.

Is San Jose a data center destination?

San Jose, the symbolic capital of Silicon Valley, is now ground zero in California's battle over how to govern the rise of data centers used to power artificial intelligence. The county seat of Santa Clara is touting its partnership with Pacific Gas & Electric, claiming the city is "the West Coast's premier destination for data center development."

Are back-up generators affecting air quality in Santa Clara County?

Air quality is a particular concern. While back-up generators run only intermittently, their presence is concentrated in a handful of regions. In Santa Clara County, where many facilities sit close together in dense industrial areas, the local impacts could be greater simply because so much equipment is packed into a small space.
