
Solar roof tiles replacement

What are solar roof tiles?

Unlike traditional solar panels that are mounted on top of a roof, solar roof tiles replace the traditional roofing material itself, offering a seamless design that blends into the structure of your home. This innovative roofing system allows homeowners to enjoy the benefits of solar energy without compromising on aesthetics.

What is the cost of solar roof tiles?

Solar roof tiles typically cost up to three times as much as solar panels. For a 3KW system, you could be looking at up to £10,000 to £12,000. The Energy Saving Trust estimates that solar roof tiles can earn a homeowner around £7250 in FIT payments over 25 years, so you could have a long wait to recoup your costs.

Are solar roof tiles a good alternative to solar panels?

You can even now buy solar roof tiles which have a similar appearance to conventional roof tiles, but even though these are less obtrusive they cost a lot more than solar panels and are less efficient too. But after taking the USA by storm with the involvement of the Tesla company, they are becoming more popular as an alternative in the UK.

Should I install solar roof tiles?

The main problem with installing solar roof tiles is their initial cost. The tiles are more expensive, up to double the price of solar panels, with the labour costs for installation a big chunk of that cost. So a DIY installation seems to make perfect sense.
