
Solomon Islands Solar System

How long do solar panels last in Solomon Islands?

The majority of solar energy systems installed in Solomon Islands last less than 2 years due to bad system design and poor user training. Superfly's systems are designed to last a minimum of 5 years (for basic systems) and 10 years for premium systems.

How many solar homes are there in the Solomon Islands?

"Solomon Islands currently has one of the lowest levels of access to electricity in the region, with over 85% of the population of Solomon Islands still without access to electricity and for this project alone, we received over 6,000 applications to obtain only 2,000 solar home systems," said Mr Aimaea.

Is there an official Solomon Islands government site?

This is not an official Solomon Islands government site. You can find the official site of the Solomon Islands Electoral Commission [here](#), and the official site of the Solomon Islands parliament [here](#).
