
Third-party testing agency for solar container communication station inverters

Why do you test & certify your inverters & converters?

We test and certify your inverters and converters with AC output, either grid connected or in stand-alone operations, according to local and international specifications and standards to ensure their safety, quality and compliance. Successful test results can lead to certification and the right to use our internationally recognized test mark.

What are inverters & converters?

Inverters and converters are the most important part of conventional and renewable power systems such as solar, fuel cell, electrical energy storage systems, wind power plants and gas turbine power systems.

Why are PV inverters important?

PV inverters are critical components of PV power systems and the key to ensuring that those systems have long and stable life spans. Your PV inverters must meet the related standards to perform safely and with a high level of efficiency, reliability and applicability.

Maximize the performance of your solar system with Sinovoltaics' Solar Inverter Inspections. Our assessments optimize DC to AC conversion, maximizing energy output & extending inverter ...

Factory Acceptance Tests (FAT) are conducted for inverters to test end-use performance requirements. Intertek CEA's third-party FAT oversight identifies issues during the testing ...

In this page JOEYOUNG's solar inverter testing service is the main from the standard testing, the optional testing to the process of JOEYOUNG's inverter testing to help customers get a better ...

Intertek provides comprehensive services to ensure the safety, quality, and compatibility of your motors, drives and inverters. We test all motors, drives and inverters that fall under certain ...

As a national high-tech enterprise, new material and electronic product comprehensive public testing platform, Intertek North test group is a pioneer of the third-party testing and certification ...

We are an independent third-party quality control provider, trusted by over 50,000 clients worldwide, and experts in overseas and local inspections in the solar industry. Factory and ...

Safe, high quality and compliant PV inverters with our testing and certification services
Inverters and converters are the most important part of conventional and renewable power systems ...
