
Türkiye smart energy storage cabinet equipment

What is smart energy storage?

Standardized Smart Energy Storage with Zero Capacity Loss All-In-One integrated design, 1.76m² footprint, saving more than 30% of floor space compared to split type Low-voltage connection for AC-side cabinet integration, ensuring zero energy loss Four-in-one Safety Design: "Predict, Prevent, Resist and Improve";

Will Turkey achieve its smart grid ambitions by 2035?

Aligned with the Turkey Smart Grids 2023 Vision and Strategy Determination

Project, developed by the Electricity Distribution Services Association in collaboration with the Energy Market Regulatory Authority, Turkey aims to realise its smart grid ambitions by 2035.

What are the advantages of standardized Smart Energy Storage?

Zero capacity loss, 10 times faster multi-cabinet response, and innovative group control technology Meet various industrial and commercial production and life applications Standardized Smart Energy Storage with Zero Capacity Loss All-In-One integrated design, 1.76m² footprint, saving more than 30% of floor space compared to split type

Are storage activities legal in Turkey?

The first legal provision on storage activities in Turkish law was introduced with the subparagraph (e) added to Article 14 of the Electricity Market Law No 6,446 (EML) with the amendment dated 21 March 2018. With the relevant amendment, storage activities have been regulated as an activity which can generally be conducted without a licence.
