
Ukraine energy storage scale

Which large-scale energy deployments are happening in Ukraine?

Other large-scale deployments in Ukraine that Energy-Storage.news has reported on include one from energy firm KNESS and a plan from the State Agency on Energy Efficiency and Energy Saving of Ukraine (SAEE) to deploy distributed BESS projects for resiliency.

How many battery energy storage systems are there in Kyiv & Dnipropetrovsk?

The six battery energy storage systems (BESS) range from 20MW to 50MW each, have been connected to the power grid in the Kyiv and Dnipropetrovsk regions, and will provide ancillary services to transmission system operator (TSO) Ukrenergo.

Is DTEK a historic step for Ukraine's energy system?

"This is a historic step for the Ukrainian energy system and will shape its development for years to come," said DTEK CEO Maksym Timchenko, pictured above at the site.

Does DTEK have a Bess project in Ukraine?

DTEK has invested a total of EUR125 million (US\$146 million) in the projects, and secured project finance from Ukraine's state savings bank for five of them in June. The projects are part of DTEK's larger 500MW BESS deployment plan in Ukraine. The firm also has a BESS project in Poland, set for commercial operation by 2027.

"In the context of large-scale attacks on Ukraine's energy system, the role of energy storage systems has become just as fundamental as energy generation itself," said ...

Let me rephrase that - battery storage has become Ukraine's energy lifeline. The math speaks volumes: every 100MW of installed battery capacity could prevent \$12 million in annual fossil ...

DTEK, Ukraine's biggest private energy company, has begun final commissioning of the country's largest battery energy storage project, the company announced on July 10 at the ...

The project included six units and was initially estimated at EUR140 million. In June 2025, DTEK secured a EUR67 million loan from a consortium of Ukrainian banks (Oschadbank, ...

Project Background With a total investment of EUR140 million, this project is not only Ukraine's first large-scale energy storage initiative but also the largest of its kind in Eastern ...

DTEK and Fluence have begun commissioning Ukraine's largest battery energy storage system, a 200 MW/400 MWh installation spread across six sites that represents one of ...

DTEK, Ukraine's largest private energy company, has selected Fluence Energy B.V., a subsidiary of Fluence Energy, Inc., a global market leader delivering intelligent energy ...

Ukraine has also managed to add large-scale energy storage capacity over the past year.

DTEK, Ukraine's largest private sector energy firm, launched the country's first energy ...
