
West African building solar curtain wall manufacturer

What are curtain walling systems?

Curtain walling systems are increasingly specified in the world's most modern commercial and industrial buildings. In fact they have come to be expected of many buildings today, not only because of their numerous practical advantages but also because of their appearance. Curtain walls are installed on the outside of a building, on their own frame.

What is a photovoltaic curtain wall?

They enhance thermal comfort and help prevent the greenhouse effect. A standard curtain wall offers no return on investment. In contrast, a photovoltaic curtain wall not only insulates the building but also generates power for over 30 years. This reduces monthly electricity bills and ultimately pays for itself over time.

Who makes ARTsolar solar panels in South Africa?

Founded in 2010 and based in Durban, ARTsolar is South Africa's only locally owned solar panel manufacturer. The company produces high-quality photovoltaic (PV) modules and has a production capacity of up to 250 MW per year.
