
Western European container emergency power generation equipment

What is eco° Gen-C?

Our eco° GEN-C series features all-in-one packaged power generation solution,engineered for mobility,easy deployment and scalability each power container is engineered to meet specific application requirement,customisations to include: engine type,noise level control and power capacity

What is a containerised generator?

Our Containerised Generators deliver robust,high-capacity power from 300-3,000 kVA in secure,weather-resistant enclosures. Designed for challenging environments and critical applications,they offer noise reduction,easy transport,and bespoke configuration to meet your site's exact needs.

What is a containerized genset?

Most containerized gensets come equipped with built-in silencers and soundproof insulation, which reduces noise to acceptable levels for urban or commercial use. Containerized gensets are often designed for "plug-and-play" operation, allowing rapid setup and start-up. This is especially useful in emergency or disaster relief situations.
