
Western European solar Module Factory

What is the EU solar manufacturing map?

The EU Solar Manufacturing map gives an overview of solar manufacturing companies active along the solar PV chain. On this map, you'll find manufacturers spanning from polysilicon to module as well as the aggregate production capacities for each segment.

How many companies in Europe manufacture solar PV modules?

Today, at least 38 companies are active in Europe manufacturing the equipment and machinery that produces vital steps of the solar PV module supply chain, including cells, ingots, wafers, and polysilicon. EU Clean Industrial Deal: Opportunity for renewables and European manufacturing

How many solar plants are there in Europe?

The latest report on the supply chain for European PV module production provides the status of 121 solar manufacturing sites, including closures and capacity on hold. It maps plants that produce PV modules, cells, wafers, ingots, polysilicon, and metallurgical-grade silicon.

Where are solar PV module equipment manufacturers based?

Current solar PV module equipment producers are based across nine European countries (DE, FR, IT, NL, CH, ES, HU, FI, NO). The majority - 75% of European solar equipment manufacturers - are active in machinery for the cell and module segments.

The latest report on the supply chain for European PV module production provides the status of 121 solar manufacturing sites, including closures and capacity on hold. It maps ...

The latest report on the supply chain for European PV module production, provided by Sinovoltaics, a Hong Kong-based quality assurance service firm, details the status ...

Discover the state of solar panel manufacturing in Europe, the challenges posed by imports, and what EU countries are doing to rebuild local production. Learn how European-made solar can ...

Comprehensive ranking of Europe's top solar companies in 2025. Profiles include market share analysis, technology innovations, and key solar mounting solutions transforming EU renewable ...
