
Which manufacturer of solar tiles is cheaper

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

How much do solar tiles cost?

Solar tiles provide an appealing alternative. Representatives from a Swiss solar tile company called Freesuns indicate its products are ideal for use on historically significant structures. The tiles generally cost between \$28 and \$30 per square foot. More specifically, the company sells three product styles.

Are solar tiles a good choice?

Sometimes called 'invisible solar', solar tiles are also an excellent option for solar power upgrades to listed buildings or buildings in conservation areas. They are also fantastic for complex roofs with cross-gables, dormer windows, sloped gables, and other non-standard pitched roofs.
