Detailed info and reviews on 41 top Energy companies and startups in Lisbon in 2025. Get the latest updates on their products, jobs, funding, investors, founders and more.

Can storage replace thermal generation in Portugal?

The pursuit of economic viability by storage facility owners will inherently lead to charging during low-cost hours and discharging during hours that are more economically attractive. Storage can replace thermal generation in constraint markets, easing the grid and supporting Portugal's 2040 phase-out target.

How does MITECO support energy storage projects?

Policy Support The Ministry for the Ecological Transition and the Demographic Challenge (MITECO) in Spain launched an investment support scheme for hybrid/co-located energy storage projects in December 2022. The funding covers between 40-65% of the investment costs for energy storage projects but excludes green hydrogen projects.

On April 28, 2025, Portugal, Spain, and France experienced one of the largest blackouts in recent years, leaving millions without power. To address the growing demand for reliable backup ...

This growth in renewables is coupled with the planned phase-out of nuclear energy by 2035; therefore, it continues to drive demand for battery energy storage systems. More ...

Why the Lisbon Project Matters (and Why You Should Care) Lisbon's iconic yellow trams zipping through streets powered entirely by stored solar energy. While we're not quite ...
